1. A Polish Army ammunition storage depot is located just south of Mragowo (Sensburg) (5352N-2118E), Poland. The depot was constructed in about 1950 and is believed to belong to the Polish Army caserne located in Mragowo.
2. The depot consists of four structures: a concrete guard house 10 x 5 x 3 meters large; one ammunition storage building 75 x 25 x 10 meters large; a second ammunition storage building 50 x 20 x 7 meters large; and another guard house 7 x 5 x 3 meters large. There are no underground storage installations at the depot.
3. Trucks, both singly and in convoys, were observed driving into the storage area. The trucks were always closed.
4. The storage depot area is about 700 to 750 meters long and about 400 meters wide. It is surrounded by three concentric barbed-wire fences, each about two meters apart. Twelve soldiers are always on guard duty at the depot. At all times six of them are within the space between the first and second barbed wire fence.
